PETITIONING THE COURT

To modify the conditions of supervision as follows:

- 14 Defendant shall reside in the Turner House community corrections center for a period of 180 days. Defendant shall be entitled to the benefits of the prerelease component by participating in the home confinement program for 59 days. You shall abide by all the requirements of the program, which will include electronic monitoring or other location verification system. You shall pay all or part of the costs of the program based upon your ability to pay. You are restricted to your residence at all times except for employment, education, religious services, medical, substance abuse, or mental health treatment, attorney visits, court appearances, court-ordered obligations, or other activities as pre-approved by the supervising probation officer.

CAUSE

Ms. Travis-Fall was ordered to reside in the Turner House community corrections center for a period of 180 day. Ms. Travis-Fall was placed at Turner House as ordered on December 1, 2005. Reports from staff confirm that Ms. Travis-Fall has been cooperative with their program rules. She is currently employed full time through Labor Ready. Ms. Travis-Fall also reports she attends church regularly. She has requested her supervision be transferred to the U.S. Probation Office in Spokane as she intends to continue to reside there. Ms. Travis-Fall is currently in the process of securing an apartment.

Effective, April 1, 2006, Bannum will take over the BOP community corrections contract from Turner House. However, Bannum does not have the capacity to house all the female residents that will be transferred from Turner House. Ms. Travis-Fall is one that would need to be transferred out to another facility as she is there as a public law placement, since preference is given to those who are on pre-release status. It is this officer's opinion that Ms. Travis-Fall appears to be adjusting well in the Spokane area and she would better benefit from serving the remaining 59 days as of April 1, 2006, on electronic monitoring rather than disrupting her current program.

by
